

THE POCHE DAILY RECORD

SUNDAY, FEBRUARY 16, 1873

AGENCIES.

San Francisco—MYRON ANGEL, 432 Montgomery St.—Room No. 11, Sole Agent for Record. Star District, Utah—J. A. SCHMIDT & CO. Hamilton—T. STARR, Russell's Bookstore. W. M. GEDLING, News Dealer in Goodrich's saloon, is our Agent in Buellville, and is authorized to receive subscriptions for the Record and receipt for the same. Virginia City—JAS. McDONALD. Eureka—F. LOWEY & CO.

RAILROAD MEETING LAST NIGHT.

Last night, in pursuance of the call published in our last issue, a meeting of citizens took place at the Court-house, embracing in the number many distinguished for their enterprise and business standing. The officers of the meeting will be found in the official report in another column. One sentiment seemed to be unanimous, viz: that we should do all in our power to secure railroad communication at the earliest moment, and the great majority of those who attended the meeting last night were strongly in favor, as the resolutions adopted conclusively prove, of immediate action in aid of the proposed line from Palisade by way of Hamilton, Belmont and Eureka, our legislators being instructed by the resolutions to work for the passage of a law empowering our County Commissioners to exchange county bonds for stock in such a road to the amount of \$350,000, said bonds to be payable in not less than ten nor more than twenty years, and to bear seven per cent. interest per annum. In the course of the discussion it was suggested that provision should be made in the law to have the question of issuing the bonds submitted to the people. The subject is one of vital importance in all its bearings, and we will probably refer to it again, it being now too late to treat the subject elaborately in this issue.

Mrs. FANNY SCHUESSLER, now confined in the Elko county jail, for throwing vitriol in the face and eyes of Joseph A. McLaughlin, at Mountain City, in that county, a short time since, says that McLaughlin owed her \$900, that he promised to marry her, and when she asked him to fulfill his promise he told her she was too old for him, and of course on this she became furious and dashed the vitriol in his face. She says she was determined he should not disappoint another woman if she could prevent it.

The Salt Lake Tribune claims that Utah is richer in coal of all grades than any of the adjoining Territories. It hopes to find a market in this State alone for 500 or 600 tons daily. The same authority states that anthracite coal is abundant in Utah. If Utah can furnish a good quality of anthracite coal, there would be no limit to the market. Probably the search has been sharper for hard coal on this coast within the last two years than for any other mineral.

EASTERN TELEGRAMS.—Our dispatches from Washington, via Chicago, advise us that the Credit Mobilier Committee will recommend the expulsion of Ames and Brooks and the severe censure of other implicated Congressmen, with the probable impeachment of Vice President Colfax. From New York we learn that a stay of proceedings has been granted in the Stokes case. See Salt Lake dispatches.

It is currently reported that Thomas Scott and J. N. McCullough, of Pennsylvania; J. Pierpont Morgan, of New York; General Burnside, W. B. Curtis, W. F. Coolbaugh and others have formed a company, with a capital of \$10,000,000, and have applied to Congress for an Act of incorporation to tunnel the Ohio and Mississippi rivers, near their junction, in order to facilitate railway movements.

The Truckee and Virginia Railroad Company have ordered three more new locomotives from the Baldwin Locomotive Works, Philadelphia. The business of this road has increased to an extent far beyond the anticipations of the owners. It is now the best paying railroad property on the coast, if not in the United States.

The first lot of bullion sent from the Pride of the West mine, located near Winnemucca, was received in San Francisco on the 10th of the present month. The lot consisted of bars valued at about \$8,000. A portion of the ore is said to net a profit of \$50 a ton.

The San Francisco Bulletin states that nine of the Southern States are in debt in the aggregate to the amount of \$202,000,000. The largest amount owing by any one of the nine States is that of Virginia, being \$47,000,000, being greater than the national debt before the war.

A WASHINGTON correspondent has discovered a streak of virtue in Congress. He says that the Territorial Delegates cannot vote, and having nothing to sell that would influence legislation, now pass for the most honest men.

The Suto Tunnel is now in a distance of 3,584 feet. Work continues to be pushed forward on this great enterprise with activity.

There were fifty-two deaths in Salt Lake City during the month of January—adults, 20; children, 32.

The total rain-fall, for the season, in California, is given at eighteen inches.

Telegraphic Dispatches.

SPECIAL TO THE POCHE DAILY RECORD

NEVADA LEGISLATURE.

CARSON, Saturday, Feb'y 15.

SENATE.

Introduced: By McClinton—Bill to define the time of levying and collecting State and county taxes;

By Moore—Bill to provide for the transportation of the insane and criminals;

By Davenport—Bill fixing the number of attaches of the Legislature.

Passed: Lockwood's bill for the better observance of the Christian Sabbath. [Closes all saloons, stores and places of amusement on Sunday.]

The Governor's message approving the Act requiring Assessors to make monthly poll tax settlements, was received.

ASSEMBLY.

Introduced: By Morrison—Bill to amend section 128 of the Civil Practice Act. [Allows the garnishee of the salary of public officers.]

Passed: Senate Bill to limit the compensation of Auditors;

Also, the Act to amend section 320 of the Criminal Practice Act.

Adjourned to Monday.

PACIFIC COAST.

Winnemucca.

Winnemucca, Feb. 15.—Several members of the Humboldt delegation arrived this morning from the capital, and were cordially received by our citizens. A grand banquet will be given this evening, which Senator Varian will attend. Work will commence on the new county buildings in a few weeks.

Weather cold and cloudy.

Salt Lake.

Salt Lake, Feb. 15.—The special message of the President on Utah affairs is a stunning blow to the hopes of the polygamists. The Church organs are evidently at a loss what to do. The Herald says it is another heavy dose, but they must dance to the music furnished them. It repeats the threadbare argument that polygamy is a part of a religious faith, and therefore above rightful attack. The News affects moderation and forbearance, and says if a collision takes place it will not be begun by them, and advises peace, calm endurance and resignation.

The general tone of the press to-day is indicative of great fear, as it was not thought possible that the Government would materially change its long-continued policy of letting time and advancing intelligence and moral influence solve the Mormon problem. The power of the Mormons at Washington was deemed impregnable, but now the danger is imminent. They are all filled with consternation; in fact, a panic everywhere prevails among the priesthood. The masses of the Mormons, though apparently anxious to await quietly the result, it is well understood that a large majority of the better class secretly sympathize with the Gentile cause and would joyfully welcome the day of emancipation from Brigham's despotism. Hooper's second speech in Congress, in reply to Clagett and others, is pronounced by Mormons, as well as Gentiles, his weakest effort during his whole ten years as delegate.

The most extensive and interesting collection of specimens from Utah has been forwarded to New York for the Vienna Exposition. There are great varieties and of much value, and it is expected they will attract great attention. A dispatch, from Logan, states that Charles Benson shot and killed David Crockett, last evening, at 9 o'clock, without provocation. Benson is still at large.

EASTERN NEWS.

New York, Feb. 14.—Jury in the Scannell case complete, and Court has adjourned to Monday morning.

Counsel for Stokes says in case the decision of Judge Davis is averse to granting a new trial, application will be made to other Judges. Meantime he will endeavor to obtain a letter from Judge Boardman to Governor Dix recommending a respite. Stokes was bitterly disappointed at Judge Boardman's denial of a new trial, and was greatly agitated. He has great hopes, however, respecting the decision of Judge Davis.

Geo. A. Clark, a well known cotton thread manufacturer at Newark, N. J., died suddenly yesterday, of heart disease. His estate is valued at \$3,000,000.

Washington, Feb. 14.—President Grant's message respecting Utah calls attention to the dangers likely to arise during the recess from a conflict of Federal Territorial authorities with the general judiciary of the Territory. Evidently it was never intended to intrust the Territorial Legislature with power to create a judiciary of its own, or increase the jurisdiction of the Federal Courts. In both these respects Utah requires legislation by Congress. The selection of grand and petit juries must be placed in the hands of those entirely independent of those determined not to enforce any obnoxious Act of Congress. An Act should be passed to deprive Territorial Courts of all power to impede the action of the Federal Courts. The Act creating the Territory of Utah provides for such legislation.

New York, Feb. 15.—John M. Hodges, a Wall street broker, last night fell down

the stairway at his residence, Fifth Avenue, and broke his neck.

Representatives of the press were yesterday denied communication with Stokes. His father and brother were the only persons who saw him. The only remaining chance for the prisoner now is a delay in the execution of the sentence, which may possibly be obtained, so that the case may be reviewed and the constitutionality of the Jury Law of '72 tested by a full Bench of the Supreme Court.

The appraisers of Greeley's estate estimate that the personal property will foot up about \$130,000. Samuel Sinclair is indebted at least \$8,000. There are about \$100,000 of bad debts and worthless securities. C. Vanderbilt, Jr., owes the estate \$50,000 borrowed money. Commodore Vanderbilt has given \$5,000 to each of Mr. Greeley's daughters, saying they can have such money as they need at any time.

Chicago, Feb. 15.—A special from Washington says that the Mrs. Wood, a daughter of General Taylor, who recently was voted by the House a pension of \$50 a month, is the mother of John Taylor Wood, who commanded the rebel cruiser Tallahassee, and who is now a well-to-do commission merchant at Halifax. It is also said that Mrs. Wood was a bitter secessionist during the war, and moreover that she has been living for some time in Paris in magnificent style.

Specials state positively that the report of the Credit Mobilier Committee will recommend the expulsion of Ames and Brooks and the severe censure of other Congressmen implicated, with the probable impeachment of Colfax. Ames is said to be incredulous as to the truth of this rumor, and avers that if they attempt to expel him he will die hard; that it will take the whole House to kill him. He says if he is expelled it will show that no man must hereafter tell the truth about Congressmen.

New Orleans, Feb. 15.—Steamer Henry A. Jones, from Houston for Galveston, with 449 bales of cotton, burned this morning in Galveston Bay; 21 lives lost, including the Captain and both clerks.

New York, Feb. 15.—Judge Davis has granted Stokes a stay of proceedings.

FOREIGN NEWS.

Vienna, Feb. 14.—Exhibition Palace completed, and goods being received.

Madrid, Feb. 13.—The National Assembly elected Peralas Zozne Gomez and Chao as Vice Presidents.

The Assembly adopted a reply to the letter of abdication, concluding with the declaration that when the present perils and obstacles are overcome the Spaniards will be able to offer Amadeus not a crown, but another dignity, that of being a citizen of a free and independent country.

Espartaco, the veteran statesman, has sent his warmest congratulations to the new Government.

Olazaga, Spanish Ambassador to Paris, thrice tendered his resignation, but the Government requested him to remain for the sake of the country and liberty, and he consented.

Couriers have left the capital with Minister Castellar's manifesto to foreign powers.

Eminent statesmen are trying to prevail upon the Government to relinquish the idea of dividing the country into separate States and forming a republic like the United States.

The Truckee Republican, of a recent date, furnishes the following information of a contemplated flume enterprise, of considerable magnitude:

A number of capitalists contemplate building a flume next spring from Lake Bigler to Truckee, following the course of the river. The flume will be built for the purpose of floating lumber, railroad ties, mining timbers, wood and shingle blocks, and perhaps saw logs. The distance from the lake to Truckee by the way of the river is fifteen miles. It is a matter of surprise that such an enterprise has not been carried into effect ere this. The grade from the lake down is very even, and only about thirty-six feet to the mile. There are no engineering difficulties in the way of running a flume from Lake Bigler to Steamboat Springs, only about ten miles from Virginia City. The distance from the lake by way of the Truckee river to Reno, and from thence to Steamboat Springs, is about sixty-five miles. In order to get sufficient fall, the flume would leave the river a short distance above Reno. Floating lumber, timber, wood, etc., from Lake Bigler to a point so near Virginia City as Steamboat Springs is an enterprise that is perfectly feasible, and is quite likely to be soon carried into effect.

The Washington correspondent of the St. Louis Republican, speaks of Fred Douglass and colored voters in the late presidential campaign, as follows:

Fred Douglass is in bad temper because of the lack of appreciation by the Republican party of the services of the colored people in the late campaign. In his paper this week, he says the colored voters who labored with zeal and effect for the success of the Republican party in the late presidential campaign, have to take back seats in the Northern States. We know of an instance in one of the departments here where a colored man, after having proven his ability under the civil service rules, was denied an appointment for some trumped up reason outside the civil service, which left no room to doubt that the non-appointment was on account of color.

REJOICING AT WINNEMUCCA.—A telegram from Winnemucca, among our last night's dispatches, indicates the approval by the Governor of a bill for the removal of the county seat of Humboldt from Unionville to the former place, on the line of the C. P. R. R.

Born.

BISHOP.—In Pioche, Nev., Feb. 15, 1873, the wife of Dr. A. C. Bishop, of a son. (The Doctor's smiles were never brighter, blander or longer continued.)

SPECIAL NOTICES.

[Notices under this head will be charged 50 cents per line for first and 10 cents per line for each subsequent insertion.]

Wilson's Restaurant, next door to Halpin's Main street. Open to-day.
